OUR GUARANTEE:
All bulls selling for $2000 or more are guaranteed against breeding injury or death for the first breeding season. Breeding season is defined as the 90-day period following the first turn-out of the bulls. Notification must be received by the breeder by September 30, 2014. Credit for the amount of the purchase price minus $2000 will be applied toward a replacement bull if one is available or applied to a purchase in next year’s sale. The buyer keeps all salvage value on the injured bull.

A LOOK AT A FEW OF OUR FAVORITE SIRES!

At Hansen Angus Ranch, Travis and Melody keep up-to-date with the new market trends and have successfully been using A.I. and embryo transplant as a way to build their proven and preferred cattle program. The performance and consistency in the bloodlines they are building prove themselves to us and their buyers each and every year. They proudly carry this practice into their bull production as well. Their goal is to surpass each prior year by offering you even a more complete and superior set of yearling bulls than the last. Potential buyers can be rest assured that they have outdone themselves again this year. They are confident that the benefits of the program they have built, and continue to build on, will indeed exceed the expectations of those that use their bulls.

Travis’s dad, Lawrence, had a dispersion sale in November 2013 selling off his registered Black Angus cattle herd and is now one step closer to “full” retirement. While Lawrence is no longer in the registered cattle business, Travis plans to continue on raising registered Black Angus cattle and bulls, even added to his current herd by purchasing several of his dad’s cows at the dispersion sale. Travis will still be raising Black Angus bulls under the same quality genetics that his dad and him had built and will be selling them each year in March.
